

RESTART

FOR BUSINESS LEADERS

CRITICAL QUESTIONS

- Are you ready for the restart as a Leader?
- Is your organisation ready for the restart?

In normal times one of the major challenges for business leaders is the gap that exists between strategic intent or vision and the day to day execution.

The performance impact of this gap at times of crisis or great challenge, and even opportunity, can be critical.

Being 'ready for restart' will need more than just a clear adaptable plan, although that will help.

The organisation and people will need to ensure they are resourced with the knowledge, skills and tools they need. Also, they will need to be aligned, engaged and motivated.
