

READY FOR THE
RESTART?

RESTART FOR FRONT LINE SALES AND SERVICE TEAMS

CRITICAL QUESTIONS

- Are you ready for the restart as a Sales Person or Service Representative?
- Are your customers ready for the restart?

Businesses will only 'restart' effectively if their front line teams are fully engaged, aligned, supported and motivated. The predictable concerns and priorities associated with restarting will be real, and need acknowledging.

Even then, the teams are being asked by some customers to be doctors, therapists and politicians, before they get down to business.

In selling or providing a service, the challenge on a teams skillset and mindset will be significant.

The great organisations will put attention or resources in place to support them.
